Founder of **Breakloo Limited**

When I think back on my journey from 2019 to 2023, the challenges I've faced make me laugh. Every turn has taught me something, and I've chosen to respond with laughter.

How do I know (My Journey)?

2019: Started freelancing, offering web development services

2020: Dreamed of starting my own business/agency

↳ Officially registered my first business

2021: Struggled and made a 2-year loss

2022: I lost my partners due to making less profit

2023: Restarted the business from 0

↳ Now, Working with 70+ Entrepreneurs Internationally.

I'm very fortunate to be able to look at my LinkedIn + Business and say:

"Things are going pretty well right now"

But the truth is, I've really fought for this to be my reality.

A vertical strip on the left side of the page features a silhouette of a person in a suit holding a string attached to a dark balloon. The background is a dark, starry night sky with a gradient of blue and green.

Since then, I've helped hundreds of entrepreneurs in various industries build their own profitable online businesses and go from employee to entrepreneur.

Now, it's your turn!

Maybe you've been WANTING to start your own online business and grow...but you're not sure if it's really possible for you.

Or maybe you've already been TRYING to build your business and get clients for a while now, but you're not getting any results.

Either way, my free "3-STEPS Framework" Plan will help.

This "3-STEPS Framework" Plan will help you get started on that same life-changing journey.

Warmly,
Hamza Rajpoot

3-STEPS Framework

This is what I personally used to make my journey profitable.

This plan is so powerful because you're able to focus on just a few key activities that actually create RESULTS. Which allows you to build momentum and sales despite not having a lot of time (you know, because you have a job and a family).

It's like a rocket building momentum before it breaks free of Earth's gravity. In your case though, you're escaping the gravity of your job.

1. Blast-Off

Connect with potential clients

Find online communities, audiences, and platforms where your clients are and introduce yourself. Let them know who you are and how you can help.

Establish your expertise

Share valuable content.
Answer questions.
Connect with others.
Offer free 30-minute sessions to get testimonials and identify potential clients.

Claim Leadership

Create your own community and invite the people you've been connecting with to join it. Share your 1-on-1 offer with your audience.

2. Acceleration

Systematize your marketing and sales processes with the learnings and results you got during "Blast-off." Grow your own audience — and sales—through your marketing and sales systems.

3. Escape

Scale your processes and grow faster. Use paid advertising and partnerships to connect with even more potential clients using your now-proven sales system.

Mistakes to Avoid

MISTAKE #1

Spending WAY too much time on things that don't matter

Perfecting your website, blogging, and setting up the “perfect” automated email sequence can be incredibly time-consuming and overwhelming.

There are a LOT of moving pieces and frustrating tech components, not to mention that you have to have top-notch marketing and sales skills and need to know how your clients think and talk as well as you know yourself.

Your first clients aren't waiting to go through your “perfect” funnel. They want to know right now that you can help them, why you're the best person to help them, and that you are a real human being they can connect with.

MISTAKE #2

Waiting for the “right” time or “perfect” clarity to start your business

So many people stay stuck and never even get their businesses off the ground because they don't think they're “ready” or that they have enough clarity on their business “idea.”

What they don't realize is that that's completely backwards.

There's never a "right" time to start your business, just as there isn't a perfect time to get a new job or start going to the gym. Plus, true business "clarity" only comes AFTER getting clients.

Making the time to take action and get results NOW is what will lead to you getting clients, which will help you get more clarity, which will help motivate you to realize that now IS your time.

MISTAKE #3

Hoping that sales will "just happen"

Did you know that the online coaching/consulting industry is currently valued at over \$2 BILLION dollars and growing? And that Intuit estimates over 40% of the population will be self-employed within the next few years?

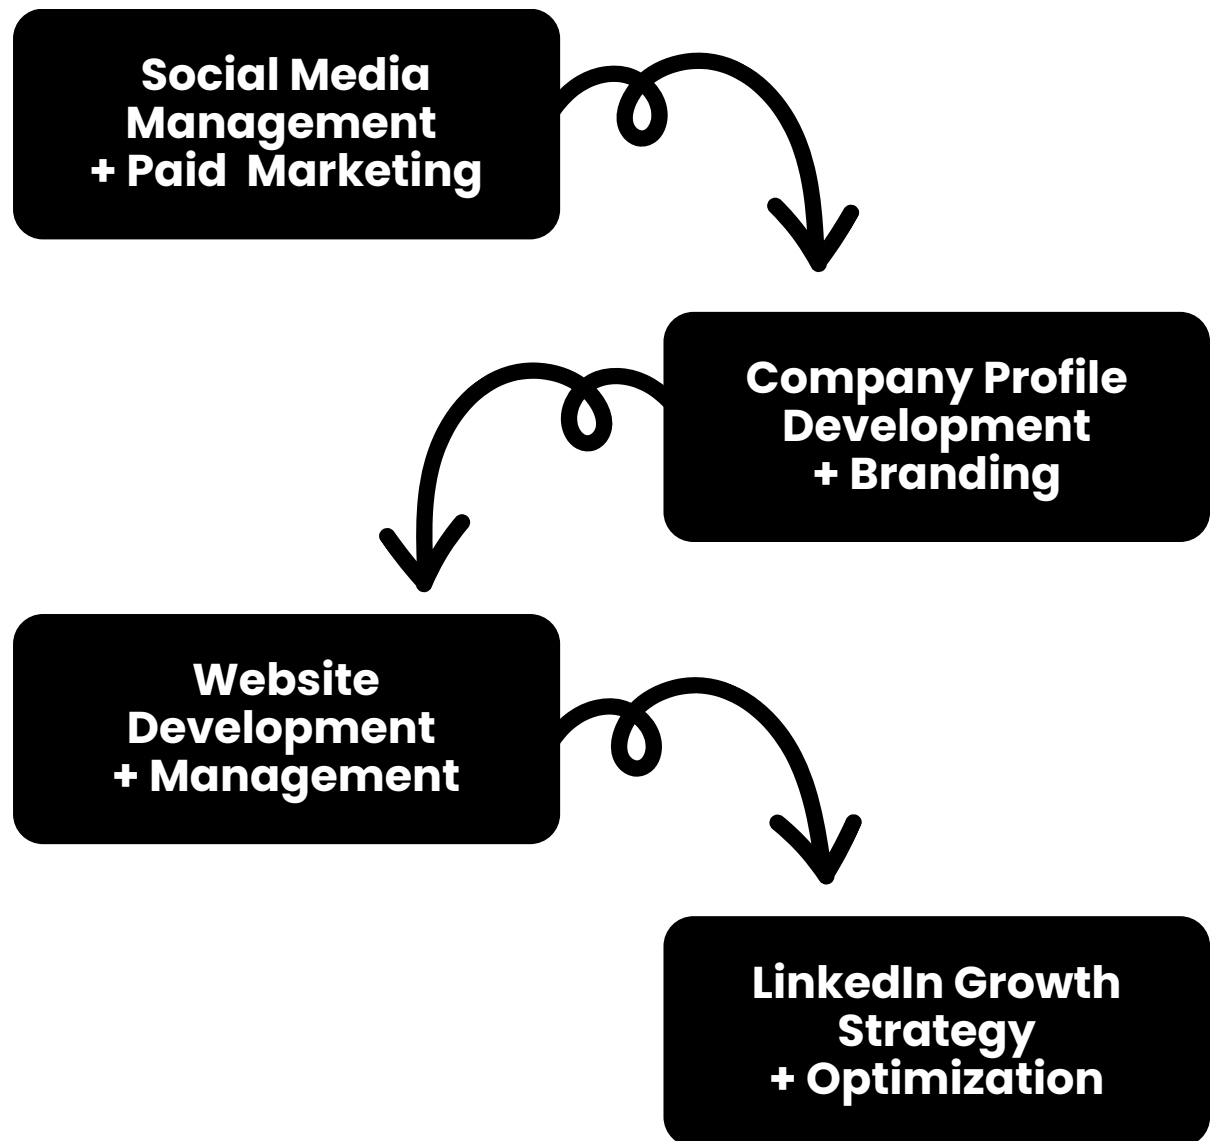

That means that there's never been a better time to build your own online business, especially with the tools and resources available to us nowadays.

Our clients have been able to make thousands of dollars within a few weeks, build 6-figure businesses from scratch in under a year, and subsequently grow their businesses to hundreds of thousands of dollars in sales.

However, results like this don't "just happen" without the right SYSTEM in place.
